5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Water spray, foam, carbon dioxide or dry chemical.

Unsuitable extinguishing media: High volume water jet.

Specific hazards during firefighting:

Do not allow run-off from firefighting to enter drains or water courses.

Hazardous combustion products:

Ammonia, Carbon dioxide and carbon monoxide, Nitrogen oxides (NO_x), hydrogen chloride

Specific extinguishing methods: Product is compatible with standard fire-fighting agents.

Keep containers cool by spraying with water if exposed to fire.

Further information: When product is wet it causes a danger for slipping. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Special Protective Equipment for fire-fighters:

Firefighters, and others exposed, wear self-contained breathing apparatus and protective suit.

CONDITIONS FOR SAFE STORAGE:

Keep container tightly closed in a dry and well-ventilated place. Keep away from food and drink. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations/working materials must comply with the technological safety standards.

8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Engineering measures: Provide sufficient mechanical (general and/or local exhaust) ventilation to maintain exposure levels below exposure guidelines (if applicable) or below levels that cause known, suspected or apparent adverse effects.

Personal protective equipment:

Hand protection: Remarks The suitability for a specific workplace should be discussed with the producers of the protective gloves.

Eye protection

Not required under normal conditions of use. Wear tightly fitting splash-proof safety goggles and face-shield when there is a potential for exposure to the eyes or face to liquid, vapor or mist. Ensure that eyewash stations and safety showers are close to the workstation location.

Skin and body protection

Wear resistant gloves and appropriate impervious clothing, safety shoes. Choose body protection according to the amount and concentration of the dangerous substances at the work place. Launder clothing before reuse.

Hygiene measures: Practice general industrial hygiene. Wash hands before breaks and at the end of the workday. When using do not eat, drink or smoke when using this product.
