

Solve 7103

Safety Data Sheet

Date Issued: 04/30/2015

Date Revised: 04/30/2015

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: **SOLVE 7103**

COMPANY: WaterSolve, LLC, 5031 68th Street Caledonia, MI 49316, USA

For Product information call 616-575-8693. www.gowatersolve.com

For Chemical Emergency Spill, Leak, Fire, Exposure, or Accident

Call CHEMTREC Day or Night

Within USA and Canada: 1-800-424-9300

Outside USA and Canada: +1 703-527-3887 (collect calls accepted)

2. HAZARDS IDENTIFICATION

Classification

OSHA Regulatory Status

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200).

Not a hazardous substance or mixture according to the Globally Harmonized System (GHS).

GHS Label elements, including precautionary statements

EMERGENCY OVERVIEW

The product contains no substances which at their given concentration, are considered to be hazardous to health.

PHYSICAL STATE	COLOR	APPEARANCE	ODOR
Liquid	Slight yellow	Clear	amine

Other information: Not applicable

3. COMPOSITION/INFORMATION ON INGREDIENTS

Component	CAS- No	Weight %	Trade Secret
Dimethylamine-epichlorohydrin copolymer	25988-97-0	50%	•

- The exact percentage (concentration) of composition has been withheld as a trade secret

4. FIRST AID MEASURES

Eye Contact: Immediately flush eyes for with plenty of water for at least 15 minutes holding eyelids apart to ensure flushing of the entire surface. Washing within one minute is essential to achieve maximum effectiveness. Get medical attention if irritation develops and persists.

Ingestion: DO NOT induce vomiting. If vomiting should occur spontaneously, keep airway clear. Get medical attention. Never give anything by mouth to an unconscious person.

Skin Contact: Remove contaminated clothing and shoes. Wash skin immediately with plenty of water and soap for at least 15 minutes. Do not reuse contaminated clothing or shoes without laundering. Get medical attention if pain of irritation persists after washing or if signs and symptoms of overexposure appear.

Inhalation: Move to fresh air and watch for delayed reaction. Give artificial respiration if breathing stops and get medical attention. If breathing is difficult, give oxygen. Get medical attention.

Most important symptoms and effects, both acute and delayed

Acute Effects: May result in mild irritation of a short-term nature for the skin and eyes.

Chronic Effects: Prolonged or repeated skin exposure may cause dermatitis.

Indication of any immediate medical attention and special treatment needed

Note to physicians: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media

Suitable Extinguishing Media:

Use extinguishing media appropriate for surrounding fire. This material is not expected to burn unless heated to dryness. Use extinguishing agent suitable for the type of surrounding fire: water, foam, carbon dioxide or dry chemical.

Extinguishing media which must not be used for safety reasons

No information available

Special hazards arising from the substance or mixture

Specific hazards during fire fighting:

Thermal decomposition (as may be experienced in a fire) may produce hydrogen chloride gas or may liberate oxides of nitrogen and carbon. Keep containers cool by spraying with water, if exposed to fire. Spills produce slippery surfaces and could present a physical hazard for firemen.

Advice for firefighters

Special Fire Fighting Procedures:

Firefighters should wear protective clothing and positive pressure self-contained breathing apparatus when fighting fires near chemicals. Cool exposed containers with water spray after extinguishing fire.

Special protective equipment for fire-fighters:

Full protective clothing and approved self-contained breathing apparatus required for firefighting personnel.

Explosion data

Sensitivity to Mechanical impact: None

Sensitivity to Static Discharge: None

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions

Wear suitable protective clothing and gloves.

Environmental precautions:

Do not allow run-off to get into sewers or surface and subsurface waterways.

Methods and material for containment and cleaning up

Methods for containment

Prevent further leakage or spillage if safe to do so. Dike to collect large liquid spills.

Methods for cleaning up

Clean up spill immediately using inert absorbent materials such as clays, sand, earth, or other commercially available dry sweeping compound. Spills of solution are extremely slippery so all residue must be removed promptly. If slippery condition persist, apply additional dry sweeping compound. Following containment, large spills should be pumped into salvage tanks.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling

Keep container closed when not in use. Avoid contact with eyes, skin and clothing. Wash thoroughly with soap and water after handling. Take off contaminated clothing and wash before reuse. Use only in well-ventilated areas. Use with adequate ventilation and employ respiratory protection where mist or spray may be generated. Ensure that eyewash stations and safety showers are close to the workstation location.

Conditions for safe storage, including any incompatibilities

Technical measures and storage conditions

Keep container tightly closed when not in use. Store in a cool, well ventilated area. Store at 5 ó 30 °C (41 - 86°F) in original closed containers. Avoid storage temperature create air pressure changes inside drums. Use proper precaution in unscrewing plug and/or opening container.

Incompatible products

Strong oxidizers. Contact with copper, copper alloys, aluminum, mild steel or iron may cause corrosion/degradation.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Guidelines

This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

Appropriate engineering controls

Engineering controls: Local exhaust ventilation as necessary to maintain exposures to within applicable limits. Please refer to the ACGIH document, "Industrial Ventilation, A Manual of Recommended Practices", most recent edition, for details. . If there are no applicable or established exposure limit requirements or guidelines, general ventilation should be sufficient. See Section 3 for more information.

Individual protection measures, such as personal protective equipment

Respiratory protection: Under most conditions, use adequate general ventilation and protective equipment since volatility and toxicity are very low. If significant vapors, mists or aerosols are present, use NIOSH approved respirator (ANSI Z882.1980) or equivalent that is equipped with a dust/mist cartridge.

Eye/Face Protection: Wear goggles or safety glasses with side shields. Wear a face shield if the possibility of material splashing or spraying exists. Do not wear contact lenses when working with chemicals. Eyewash and safety shower stations in the work area are recommended.

Hand protection: Rubber gloves.

Skin and body protection: While there is a possibility of skin contact, use the following protective equipment as appropriate gloves and boots that are impervious to liquid material, apron, boots, hood, pants and jacket.

Other personal protection data: Eyewash fountains and safety showers must be easily accessible. Avoid contamination of food, beverage or smoking materials. If clothing is contaminated, wash skin and launder clothing. After handling material and before eating, drinking or smoking, wash face and hands thoroughly with soap and water. Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance and Odor: Clear to slight yellow liquid ; amine

<u>Property</u>	<u>Values</u>	<u>Remarks/Method</u>
pH:	7.0 ó 9.0	as is
Melting Point and Freezing:	(-7°C) to 0°C / 19.4 to 32 °F	No information available
Boiling Point/Boiling range:	>100°C / 212 °F 760 mm Hg	No information available
Flash point:	>100°C / 212°F @	No information available
Evaporation Rate:	Same as water	No information available
Flammability (solid, gas):	Not applicable	No information available
Flammability Limit In Air		
Upper limit:	Not applicable	No information available
Lower limit:	Not applicable	No information available
.....		
Vapor Pressure:	58mm Hg @ 38°C	No information available
Vapor Density:	>60 mm	No information available
Specific gravity:	1.12-1.16	No information available
Solubility in Water:	Completely (100%)	No information available
Solubility in other solvents:	No information available	No information available

Partition coefficient: N-octanol/water:	No information available	No information available
Autoignition temperature:	Not applicable	No information available
Decomposition temperature:	No information available	No information available
Kinematic viscosity:	No information available	No information available
Dynamic viscosity:	15 - 50 cps	No information available

Density:	9.34 ó 9.67 lb/gal
Bulk Density:	No information available
Explosive properties:	No information available
Oxidizing properties:	No information available
Softening point:	No information available
Molecular weight:	No information available
Volatile organic compounds (VOCs) content:	No information available
% Volatile (By Wt):	50%

10. STABILITY AND REACTIVITY

Reactivity

Reactivity: No data available

Chemical Stability: Stable under normal conditions of handling, use and transportation.

Possibility of hazardous reactions: None under normal processing.

Hazardous polymerization: Hazardous polymerization does not occur.

Conditions to avoid: None known

Incompatible materials

Materials to avoid

Strong oxidizers. Contact with copper, copper alloys, aluminum, mild steel or iron may cause corrosion/degradation.

Hazardous decomposition products: Thermal decomposition (as may be experienced in a fire) may produce hydrogen chloride gas and/or oxides of nitrogen and carbon.

11. TOXICOLOGICAL INFORMATION

PRINCIPAL ROUTES OF EXPOSURE: skin, eyes, ingestion and respiratory tract

Eye contact: None expected, but prolonged or repeated eye contact may result in mild irritation and redness of a short-term nature.

Skin: None expected, but prolonged or repeated skin contact may result in irritation of a short-term nature.

Inhalation: Not considered hazardous under normal conditions of use. Although unlikely to occur, inhalation could result in an adverse reaction to persons previously sensitized to the material.

Ingestion: Effects of ingesting small amounts are negligible; ingesting large amounts may injure person slightly.

Acute toxicity

Oral LD50 >2000 mg/kg (rat: estimated)

Dermal LD50 >2000 mg/kg (rat: estimated)

Inhalation LC50 No information available

Information on toxicological effects

Symptoms: No information available

Delayed and immediate effects as well as chronic effects from short and lon-term exposure

skin

Skin corrosion/irritation

Testing conducted on rabbits using the Draize technique revealed the material to be mildly irritating to the skin.

Serious Eye damage/eye irritation

Testing conducted using the Draize technique revealed that the material produces no corneal or iridial effects and only minor conjunctival effects.

Sensitization: No information available

Germ cell Mutagenicity

This product was negative in the Ames Test. This product was negative in the mouse Micronucleus Test.

Carcinogenicity:

This product does not contain any components in concentrations greater than or equal to 0.1% that are listed as known or suspected carcinogens by NTP, IARC, ACGIH or OSHA.

Reproductive toxicity: No information available

Specific target organ toxicity- Single exposure

No information available

Specific target organ toxicity- Repeated exposure

No information available

Aspiration hazard

No information available

Other information

Conclusions are drawn from sources other than direct testing.

12. **ECOLOGICAL INFORMATION**

Ecotoxicity

- The effects of this product on aquatic organisms are rapidly and significantly reduced with the presence of dissolved organic carbon in the aquatic environment.

Acute aquatic toxicity-Product information

Fish: LC50 (96 hour): >10 mg/L ó Zebra Fish (*Danio rerio*)

Crustacea: EC50 (48 hour): >10 mg/L-Water flea (*Daphnia magna*)

Algae/aquatic plants: No information available

Mobility No information

Persistence and degradability No information available

Bioaccumulative potential This product does not bio-accumulate.

Results of PBT and vPvB assessment No information available

Other adverse effects

Other information: No other ecological studies have been carried out on this product.

13. **DISPOSAL CONSIDERATIONS**

Waste treatment methods

Disposal of wastes:

Recycle, if possible. If not, dispose of the waste material in accordance with all applicable federal, state and local laws and regulations regarding health and pollution.

Contaminated packaging

Since empty containers retain product residue, follow label warnings even after container is emptied.

14. **TRANSPORTATION INFORMATION**

DOT Status Not regulated

ICAO/IATA Status Not regulated

IMDG Status No regulated

15. **REGULATORY INFORMATION**

International Inventories

TSCA (United States)

All ingredients are on the inventory or exempt from listing.

Australia Chemical Inventory(AICS)

All ingredients are on the inventory or exempt from listing.

Canada (DSL)

All ingredients are on the inventory or exempt from listing.

Canada (NDSL)

None of the ingredients are on the inventory.

Chinese Chemical Inventory:

All ingredients are on the inventory or exempt from listing.

EINECS - No

Some ingredients are not on the inventory.

European-ELINCS (European List of Notified Chemical Substances)

None of the ingredients are on the inventory.

Japanese Chemical Inventory:

Some ingredients are not on the inventory or exempt from listing.

Korean Chemical Inventory

All ingredients are on the inventory or exempt from listing.

Philippines chemical Inventory

All ingredients are on the inventory or exempt from listing.

U.S. Federal Regulations

CERCLA

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

CWA (Clean Water Act)

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

SARA Section 311/312 Hazard Categories:

Acute health hazard: No

Chronic health hazard: No

Fire hazard: No

Sudden release of pressure hazard: No

Reactive hazard: No

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subjects to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, part 372.

U.S. State Regulations

CALIFORNIA PROP 65: WARNING! This product may contain traces of a substance (s) known to the State of California to cause cancer and/or reproductive toxicity.

U.S. State Right-to Know Regulations

This product does not contain any substances regulated under applicable state right-to-know regulations.

NFPA Rating: Health-1 Flammability-0 Instability-0 Special hazard-
HMIS Rating: Health-1 Flammability-0 Physical hazard-0 Personal protection-B
